PSUG Board Member Responsibilities

Soliciting nominations for Four (4) Board Members positions – terms expiring 2023
Each position carries a three (3) year term. A Board year is from one annual Board
Meeting to the next. Meetings are currently held at the Alliance Conference. The [Public
Sector User Group Bylaws](#) can be found on the User Group web site.

Please provide a short biography in Nominee Profile, question #7 below. Note that the
information you provide will be included in the conference agenda, viewable by all
Alliance Conference attendees. The new board members will be elected by PSUG
organization members. Election results will be announced during the Annual Public
Sector User Group Meeting, **Wednesday, March 17, 2021, at 8:30 am**.

Board Member Time Commitments/Travel Requirements: A. Monthly Board calls
currently held the 1st Wednesday of each month from 1:00 pm – 2:00 pm PST. B.
Attendance at the annual Board Meetings, held at the Alliance Conference in March of
each year

Board Member Responsibilities:

1. The Board shall be primarily concerned with the furtherance of the objectives of the
Public Sector User Group.

2. The Board is responsible for developing and planning a program for the Public Sector
User Group meeting at the Annual User Group Conference (Alliance).

3. The Board also will define the duties and responsibilities of the officers and establish
other positions deemed necessary for the fulfillment of the goals, objectives, and
responsibilities of the Public Sector User Group.

4. The Board shall convene meetings at least one time annually.

5. The Board will maintain alliances with executive members of other User Groups,
including but not limited to, the Higher Education User Group, Special Interest Groups
to further the interests of all Public Sector customers with System Information Partners.

6. The President of the Board shall coordinate information and activities with HEUG
group leaders.

7. The Board shall provide a structure to foster and engender Public Sector User Group
initiatives for the improvement of System Information System products and/or solving
problems associated with the implementation of these products with System Information
Partners.
