

What's new in PeopleTools 8.60

Exploring the 'new' tools version

Ernst La Haye - CY2

Who We Are

- PeopleSoft Campus Solutions consultancy & solutions development
- Dutch roots with Global delivery, including US higher education
- Hundreds of projects in 15 countries
- Oracle development partner for Campus Solutions and Digital Assistants

Solutions:

- Digital assistants
- Student Communications Platform
- Program Enrollment
- Continuing Education
- Admissions Management

Services:

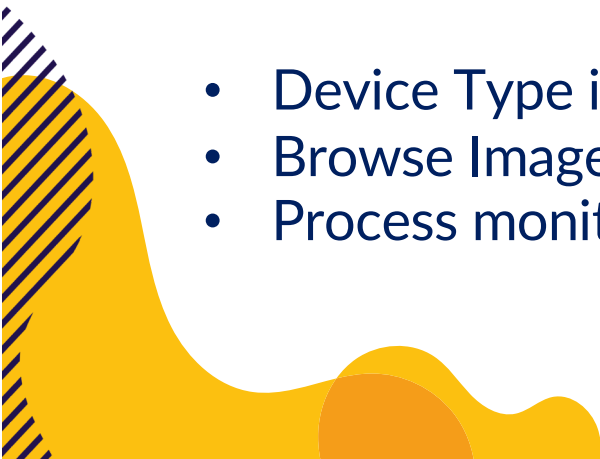

- CS Revitalization

Development Tools Enhancements

Fluid Application Development and Front end changes

- Redwood Color Scheme and Banner Layout Changes
- Global Search
- Quick Access Bar
- Mark Complete Notifications Action
- Notify Option
- General Settings in My Preferences (recently visited items)
- Device Type in System Information Page
- Browse Image Catalog Page
- Process monitor enhancements

Development Tools Enhancements

Application Engine

- Add / replace application AE sections
- Enabling Selective Tracing

Application Designer

- Availability of Drop Zone Fields in Component Interfaces
- Mask Sensitive Data in PeopleCode Trace Files
- Support Read-only Fields in Screen Reader Mode
- Support for CKEditor v5 in PeopleTools
- PeopleSoft Compare Report Viewer

Development Tools Enhancements

Fluid Application Development

- Group Box Header Extensions
- Multiple Hotspots for Grid Rows
- Spell Check Available for Rich Text Editor Fields
- Transparent Borderless Buttons

PeopleCode classes

- GlobalEventMapping

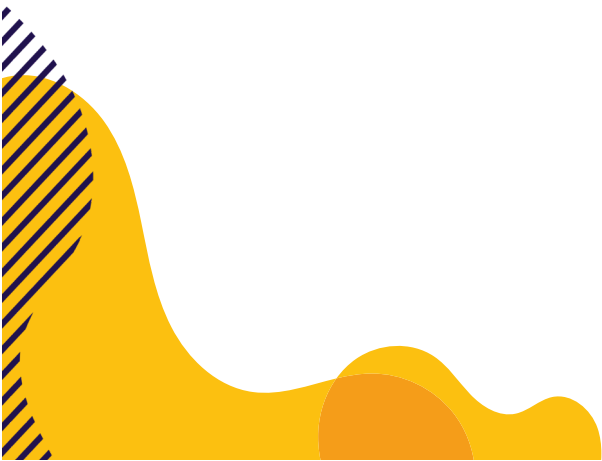

PeopleCode Editor Enhancements

- Use Ctrl+B to find matching parentheses or braces. Parenthesis or brace is shown in red color if a matching parenthesis or brace is not found.
- Use Ctrl+D to duplicate current line.
- Use Ctrl+U to comment or uncomment selected content.
- Double-click a string in the active window to highlight all occurrences of the string

Search Technology

- Configurable Search
- Use Real Time Indexing Switch
- Configurable Date Range Indexing
- Data Masking at the Query Level for Global Search and Kibana

System Administration Tools Enhancements

- SYSAUDIT Queries for Roles
- SYSAUDIT Queries for Runtime Definitions
 - Who has ever used runtime definitions??

Performance Monitor

- Availability of Performance Trace in Fluid Pages!
- Improved System Performance Page
