05/07/2021 03:00 PM	Technical and Reporting	Lift and Shift PeopleSoft Campus Solutions to Oracle Cloud in 4 weeks	Tools involved with a lift and shift approach to moving platforms to OCI	Strategies for running PeopleSoft in OCI	Retrospective on the four week effort	Basic	Proof of concept moving PeopleSoft Campus Solutions to Oracle Cloud Infrastructure (OCI) in just four weeks	Information Technology	None	No Advance Preparation Required
05/13/2021 12:00 PM	Human Capital Management	HR Notifications: The Easiest Thing You'll Do All Day	Create a query-based recipient list for HR Notifications	Create an HR Notification that sends a formatted email	Create a query for easy reporting on sent and unsent HR Notifications	Basic	There's an easy way to send beautifully formatted emails - plus Announcements and Notifications - from PeopleSoft HCM. Attend to find out about this new & improved functionality.	Computer Software & Applications	None	No Advance Preparation Required
05/26/2021 01:00 PM	Admissions	Activity Guide Composer Webinar	Learn about activity guide composer basics	Learn more advanced features of activity guide composer	Learn about questionnaire framework and acknowledgment framework	Intermediate	Come learn the ins and outs of Activity Guide Composer and Questionnaire Composer. Those familiar with Task Management Activity Guides and those brand new to Activity Guides should walk away with some new knowledge and tips and tricks.	Computer Software & Applications	None	No Advance Preparation Required
06/17/2021 01:00 PM		Using a Pivot Tile to Identify and Communicate Critical Data Corrections	At the end of the presentation the attendees should be able to evaluate if this type of data error resolution solution would benefit their institutions.	If an attendee has never seen a pivot tile/drilling query combination, the attendee will have a sense of how much time and effort is needed to implement this type of solution.	During the presentation attendees will have experienced a way to use a pivot grid that ties to end user actions. Attendees will be encouraged to recognize ways they can use pivot tiles to share information in an efficient way.	Intermediate	We'll walk through how UMass created an app engine that identifies data errors, based a query with drilling URLs on the results, and then created a pivot grid tile for our campuses to review their errors. We hope to inspire you to create your own!	Personnel/Human Resources	None	No Advance Preparation Required
06/22/2021 12:00 PM	Cross-module feature	Fluid 101: You won't drown, it's only Fluid!	Focus on communication aspects for large sized projects	Leading change for a university wide impacting initiative	Managing stakeholder expectations	Basic	There are many moving pieces for a Fluid implementation in Campus Solutions. Come see how DePaul University rolled out fluid as part of our upgrade to Campus Solutions 9.2. While the upgrade aspect was complicated, it was not as impactful as the changes that Fluid introduced. We will discuss how we changed our landing page/portal, created new home pages and delivered a system that felt a bit more modern than the one we were moving away from.	Computer Software & Applications	None	No Advance Preparation Required
7/20/2021 14:00	Technical and Reporting	ElasticSearch 101 – What, Where, How and...Why is it needed?	Where to find all the pages related to setting up ElasticSearch within Campus Solutions (which will be similar to all the other pillars of PeopleSoft with a few exceptions)	A basic understanding of the purpose and use of ElasticSearch	Who should be involved in setting up and administering ElasticSearch	Basic	ElasticSearch is the tool/process Oracle has delivered to allow searching of objects and information within Peoplesoft. We will look at the following areas of interest related to ElasticSearch, within Campus Solutions (CS) without going too deep into any one of the topics: <ul style="list-style-type: none"> Why set-up ElasticSearch? What is needed to setup ElasticSearch? 	None of the above	None	No Advance Preparation Required
7/27/2021 15:00	Project & Change	Developing your IT Project Portfolio Management and allowing for high visibility in Higher Education	Intake of Project Requests	Standardization of Project Pla	A view into Executive Dashbo	Basic	How do you go from not knowing all the projects in your IT Department to full visibility and collaboration with the Campus Community? With tight resources and advancement and demand on technology, this session will walk you through just that.	Business Management	None	No Advance Preparation Required

9/14/2021 13:00	Project & Change	Striving for Institutional Excell	Learn about Lean concepts and how they can be used to improve the efficiency and effectiveness of critical academic and business processes.	Define how to identify waste and value added tasks in your processes.	Explore Lean tools that can be used at your institution.	Overview	Although Lean thinking has its roots in the manufacturing industry, its principles and practices are increasingly being recognized as critical tools for achieving operational efficiencies in education, healthcare, technology, services and government. This webinar will introduce Lean concepts aimed at maximizing customer value while minimizing waste Questionnaire Framework!	Management Services	None	No Advance Preparation Required
9/17/2021 12:00	Admissions	Activity Guide Composer and Questionnaire Framework	Learn how to build a basic Activity Guide and Questionnaire	Learn about features and options beyond the basics such as using videos and pagelets/related content	Learn about assignment options, such as through Task management, dynamic assignment via fluid tiles, and how you can utilize My Processes to use the new	Basic	Those familiar with Task Management Activity Guides and those brand new to Activity Guides should walk away with some new knowledge and tips and tricks.	Information Technology	None	No Advance Preparation Required
9/20/2021 13:00	Admissions	PS Query Expressions For Functional Users	Learn about miscellaneous expressions and expanded usage for case statements, such as creating certain values as fields, doing translations, etc.	Learn about regular expressions and how these can be used to expand query logic or improve output	Learn about more advanced expressions such as ListAgg in addition to removing duplicates and truncating results when receiving an error	Intermediate	Learn how to get more out of your queries as we take a look at some of the query functionality that UT Dallas Admissions has found to be the most helpful. We use PS Query for population selections, reports, pagelets, and more, and would love to share which expressions we've found that have helped make our lives easier!	Computer Software & Applications	Basic query know	No Advance Preparation Required
9/21/2021 11:00	Admissions	File Parser - Conditional Logic, Header Skipping and More	Using delivered File Parser functionality to create conditional logic, avoid writing code/app classes	How to skip a header row	Learn about an automated flow of PS Query -> File Rename -> File Parser -> File Archive	Intermediate	This session will demonstrate some methods of configuring File Parser to avoid writing code or modifying the delivered process. There are ways to utilize conversion routines and file mapping to extend the functionality. When using PS Query to create a data file for File Parser, it can be formatted to help skip the header row. A fun batch file management process will also be demo'd.	Computer Software & Applications	None	No Advance Preparation Required
9/22/2021 13:00	Financial Aid	UEMs - So Useful, So Flexible, So Easy! A Step-by-Step Overview on:	Learn the setup elements: security, setup component, query records	Learn how to assign & update: manually and in batch	Learn how to use: disbursement rules, marking cohorts, incorporating into queries, and more!	Basic	We love User Edit Messages (UEMs) here at DePaul. They are useful, flexible, and easy. We'll start off with the setup including some tips and tricks that could assist you later on & move on to ways we use them here at DePaul. I would also like to spend some time hearing how you all use UEMs.	Information Technology	None	No Advance Preparation Required
10/13/2021 01:00 PM	Project & Change Management	How to Conduct A Lean Kaizen / RIE (Rapid Improvement Event) in Higher Education	Learn how to prepare for a RIE / Kaizen Event	Learn how to conduct a RIE/ Kaizen Event	Learn about the follow up activities to a RIE/ Kaizen Event	Basic	So, you want to conduct a Kaizen / RIE Event? Join us for a step-by-step introduction of what is essential to prepare for before the event, how to conduct the event, and critical follow up activities that need to be performed after your event.	Management Services	None	No Advance Preparation Required
10/14/2021 03:00 PM	Technical and Reporting	Query Manager 101	Gain insight and understanding about the Query Manager tabs and using the tabs of Query Manager be able to add and record and select fields to display in the query results.	Understand the different Join types and how to add more than one record to a query.	Learn the different methods for adding criteria and prompts to a query.	Basic	If you are new to the PeopleSoft query tool, join this webinar to learn the "what", "where", and "how" of Query Manager, including how to create basic queries.	Computer Software & Applications	None	No Advance Preparation Required
