

Automating Admissions Walk in Process using RPA

SESSION 2

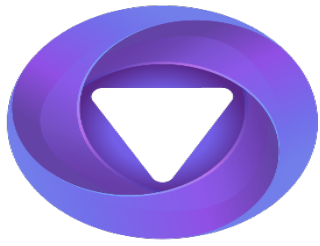

July 10, 2018

Stuart Duncan

- ◆ Director
- ◆ Visions Consulting
- ◆ stuart.duncan@visions.co.za

Aiden Whittaker

- ◆ Technical Consultant
- ◆ Visions Consulting
- ◆ aiden.whittaker@visions.co.za

VisionsGroup

our global partner in higher
education |

Visions & ORACLE

An Oracle preferred partner for
Higher Education across EMEA

Visions & KOFAX

A Kofax preferred partner for High Education across EMEA

Agenda

1. Kofax “Kapow” (RPA Product) Slide Introduction
2. RPA Demo
3. Q&A

TODAY
Digital Revolution

2000
Outsourcing Revolution

1980s
Computer Revolution

18th-19th Centuries
Industrial Revolution

15th Century
Printing Revolution

The Challenge

- » More People
- » Multiple Sources
- » Massive Amounts of Data
- » Disconnected Systems

The Status Quo

- » More People
- » More Cost
- » More Outsourcing

The Solution

Robotic Process Automation

is less about the latest trend in software. It's more about **the new digital version of the white-collar worker**. It's a reinvention of how work gets done.”

— *Frank Casale, Founder and Chairman Emeritus
of the Institute for Robotic Process Automation*

The Future of the Digital Workforce

Hand Work:
RPA

Head Work:
**Cognitive
Automation**

Introducing **KOFAX KAPOW**

Simple,
Visual Robotic
Flow Design
