Graduate Research Module

Work Breakdown

- Build Configuration
- Data Conversion
- Re-integrate non-delivered functionality
- Re-integrate ad-hoc GU specific objects
- Add new custom functionality
- Build Online Workflows functionality

Data Conversion

- Developing process
 - Considerable effort – i.e. App Engine calls CI
 - Have to include historical data
- Data Schemas different
 - Data transformation
 - New data fields
 - Reconciliation
- Data Cleansing

Approach

- ✓ Decommission non-required/unused functionality
- ✓ Segregated completed & in-progress records
- ✓ Segregated historical rows & latest row

Production Support

Enhancements

ADU 9-11 NOVEMBER 2016

Production Support

Production Support

- The Graduate Research module is support by the BSS Student Systems team.
- Increase in workload for BSS Student Systems Team.

Enhancements

- There have been many phases to upgrade the module and fix bugs.
- Future proof module – easy to improve and enhance.

Feedback from users

From
Academics:
HDR dashboard
makes it easy to
find relevant
information and
reports.

From
Administration:
Have more time to
support students
as time spent on
data entry is
reduced.

From
Candidates :
Candidate Centre
easy to use and
can find all
information in the
one spot.

From
Academics:
Increase the
functionality of
the HDR
dashboard.
