

Amsterdam - 22-23 October 2019

Fluid Academic Self Service (a bespoke approach)

Session #5503

UNIVERSITY OF
CAMBRIDGE
Information Services

www.uis.cam.ac.uk

Presenters

Chris Hay - Technical Manager, Student Systems

- *Over 11 years experience working with PeopleSoft Campus Solutions*
- *Worked in both FE and HE sector in data-management, functional and technical roles*
- *Keen cyclist, actor and sound designer; also owns a cat (or does the cat own him?)*

Britta Granas – Functional Analyst, Student Systems

- *A PeopleSoft dinosaur who still laments the loss of 'Sparky' from PeopleSoft SA7.6 ANZ*
- *Experience as SME and in functional roles in large New World dual sector institutions (HE & VET/FE) and the ancient UK education establishment*
- *Recovering rower and surf lifesaver (what do all the normal people do with their time?)*

Facts 'n' figures

The **4th** oldest surviving University - founded 1209

31 autonomous Colleges

100+ Departments, Faculties, Schools & Non-School Institutions

26,000+ students
14,000+ employees

109 Nobel Prize winners

The University houses over
15 million books in over
100 libraries

UNIVERSITY OF
CAMBRIDGE
Information Services

But academics were still all over the place

The image displays three overlapping screenshots of the University of Cambridge CamSIS system interface, illustrating the complexity and fragmentation of the system for academics.

Top Screenshot (Academic Homepage): Shows a dashboard with a notification about a system update on 23 July, a 'To-do list' icon, and sections for 'My current students' and 'Need help?'.

Bottom Left Screenshot (Student Search): Displays a search interface for finding current or former students. It includes fields for First Name, Family Name, CRS Id (e.g., ab123), and USN (e.g., 301234567). Below the search bar, there are buttons for 'My Current Students', 'All My Current Students', 'Director of Studies', 'College Mentor', and 'Smart Searches'.

Bottom Right Screenshot (My students): Shows a detailed view of a student's information, including a 'Student Summary' (Miss [Name]), 'Contact Details' (Email Address: cs_ops@admin.cam.ac.uk), and a list of students. The 'My students' section includes a filter for students (optional) and a table of students with columns for Name, USN, CRSId, College, and Role.

Name	USN	CRSId	College	Role
1 [Name]	[USN]	[CRSId]	Newham College	Director of Studies
2 [Name]	[USN]	[CRSId]	Newham College	Director of Studies
3 [Name]	[USN]	[CRSId]	Newham College	Director of Studies
4 [Name]	[USN]	[CRSId]	Newham College	Director of Studies

Compatibility

Fluid is becoming more of the “norm”.

User experience

The screenshots illustrate the user interface for the University of Cambridge CamSIS Academic Homepage, specifically for a Director of Studies (DoS) at Newnham College. The interface is designed to be user-friendly and efficient, addressing inconsistencies and gaining efficiencies.

Academic Homepage: The top section shows the 'Academic CamSIS homepage' with a message about updates on 23 July. It includes a 'To-do list' and links to 'My current students' and 'Need help?'. The navigation bar includes 'Favourites', 'Main Menu', and 'CamSIS for Academics'.

Student Search: The 'Student Search' section allows users to find a current or former student by entering their First Name, Family Name, CRS Id (e.g., ab123), or USN (e.g., 301234567). It also includes a 'Smart Searches' section with buttons for 'All My Current Students', 'Director of Studies', and 'College Mentor'.

My Current Students, grouped by My Role: This section displays a grid of 21 students, grouped by role. Each student entry includes a photo, name, and a 'Details' button. The grid is organized by College, Department, Name, My Role, Advisers, Tripos Part, Course, Start Term, and Nationality.

Student Summary: The 'Student Summary' section provides a detailed view of a specific student, Miss [Name], who is a current student at Newnham College, Natural Sciences Tripos, admitted in Michaelmas Term 2017. It includes personal details like USN, Gender (Female), and Birthplace (Born in United Kingdom).

My students: This section provides a list of students and allows filtering by Name, College, Programme, Plan/Tripes, Role, and Subject Area. It includes a 'Filter Students (Optional)' section with dropdowns for Name, Programme, Role, College, Plan/Tripes, and Study Year. The 'Filter Students (Optional)' section also includes a 'Reset' button and a 'Photo Size' dropdown set to 'Small'.

Table of Students: The table displays a list of students, including their Name, USN, CRSId, College, and Role. The table is sorted by Name and shows 15 of 15 students.

Name	USN	CRSId	College	Role
1 [Name]	[USN]	[CRSId]	Newnham College	Director of Studies
2 [Name]	[USN]	[CRSId]	Newnham College	Director of Studies
3 [Name]	[USN]	[CRSId]	Newnham College	Director of Studies
4 [Name]	[USN]	[CRSId]	Newnham College	Director of Studies
5 [Name]	[USN]	[CRSId]	Newnham College	Director of Studies

Addressing inconsistencies, gaining efficiencies.

Simplification

Too many routes; interfaces; ways of doing things.

De-customisation

Previous versions were all 100% bespoke solutions, with technology layers that were getting harder to maintain.

Option D1-B

Mock-ups

Cards D1

The mock-up shows a web interface for 'CamSIS for academics'. It features a sidebar with a 'Student search' section containing input fields for First Name, Last Name, CRS Id, and USN, along with a 'Search' button. Below this is a 'Filters' section with links to 'All my current students' (37), 'Graduate Supervisor' (8), 'Director of Studies' (1), 'My new Students' (5), 'CamSIS To-do List' (1), and 'My Account details' (5). The main content area displays a table of student records, grouped by college. The 'Jezus college' group lists five students, each with a profile picture, name, role, and status. The 'Care college' group lists two students. A 'Print / pdf' button and a 'Customise' link are located at the top right of the table.

Tiled access to information or tasks

The screenshot displays the 'CamSIS for Academics' interface. The header includes the University of Cambridge logo, a navigation menu with 'CamSIS for Academics', and icons for home, menu, and refresh. The main content area features three white tiles on a teal background:

- My Students**: Contains an icon of a building and people.
- Outstanding To-dos**: Contains an icon of a checklist with an exclamation mark. Below this tile, an orange arrow points to a box labeled 'Count of outstanding tasks' with the number '8' above it.
- Need help?**: Contains an icon of two speech bubbles with a question mark. Below this tile, an orange arrow points to a box labeled 'Big button link to help content'.

The footer contains the University of Cambridge Information Services logo and the website address www.uis.cam.ac.uk.

Different tasks all on one page. A click takes them to the task to complete it (Fluid or Classic)

Demo (in addition)

- Overall framework
 - Fluid Master-Detail framework – equivalent of a Classic WorkCenter. Tried a few options (grouplets, didn't quite work), navigation tabs (which we used, with added queries to do the filters).
 - To-dos – main content (not Master Detail) with a side-page.
 - Successfully using a two-panel implementation!
- User experience improvements
 - Slimming down, getting rid of manual configuration.
 - Building in business rules and intelligent information.
 - Dynamic content – real-time – automatic clean-up.
 - Fixing the bugs that have been there for too long.

Testing overview - tooling

The screenshot shows a Confluence page for 'Academic Self Service'. The left sidebar contains a navigation menu with sections like 'Pages', 'Blog', 'SPACE SHORTCUTS', and 'PAGE TREE'. The main content area displays a table with requirements for a to-do list feature. The table has columns for ID, User, Description, Summary, Functionality, and Status. The requirements are for a to-do list that filters tasks by type (All, Supervision report, Enrolment approval, Application forms) and allows users to email students.

ID	User	Description	Summary	Functionality	Status
R2	As an academic user	I want to filter my list of to-dos So that I can easily identify groups of tasks to complete.	Summary As the grid might become quite large over time (and particularly during exam enrollment season), filters on the left-hand panel would be a useful feature for users. It would enable them to work on the things that they want to work on first, and provide an easy way of seeing how many of which types of task are outstanding.	Functionality <ul style="list-style-type: none">A default feature of "All" is required, which shows a total count of all of the outstanding tasks.The "All" filter is the one that users are presented with first when landing on the page.Each individual task will have its own filter, grouped by the type, with a count of how many outstanding tasks exist for that type.The order of these filters should be the same as for the grid order (Type).When a user clicks on any filter, the grid on the right only shows tasks for that type.	SHOULD
R3	As an academic user	I want to be able to email all or some of my students from the to-do list So that I can ask them questions or chase various actions.	Summary Is it apparent that through the emailing research we carried out, large amounts of emails are sent via the academic interface - including from the to-do list. The most common usage here is when academics are chasing exam enrolments for individual or groups of students.	Functionality The functionality should be the same as for CAMACSS-34 - Email students DONE and also specified in FEATURE - Is emailing functionality still required? <ul style="list-style-type: none">A user should be able to select one or more students, and select a button or action to email those students.Error handling would be needed if a user selected no-one and tried to use the email functionality.When emailing, we should use the single style email rather than recreating the wizard interface that we currently have in the academic interface for reference.	SHOULD
