**Fluid: What Students want...what
Universities can offer...**

29 June 2016
9:00 - 9:55

Introduction

What students want:

...no surprise...students make extensive use of smartphones...

...and tablets...

...and expect a simple, modern user interface...

Introduction

What Universities can offer - prior to Fluid...

Student Self Service
Student Center
Use the student center to manage school related activities.
Service Requests
View, create, and update your graduate research service requests.
Current Tasks

My Academic Information
Institution Universidade Católica - Angola
Career Non Award
Program Extraordinário
Course of Study Extraordinário
Academic Load Full-Time
Campus Polo Páncia

Introduction

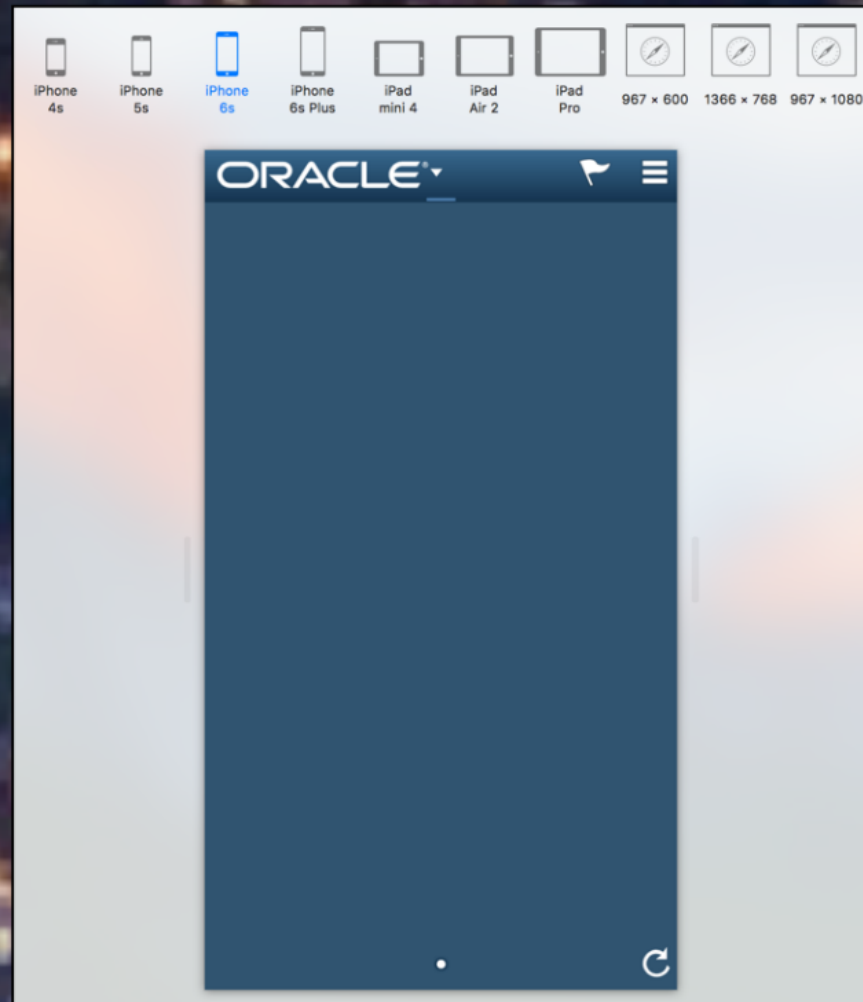

What Universities can offer now -
with Fluid...

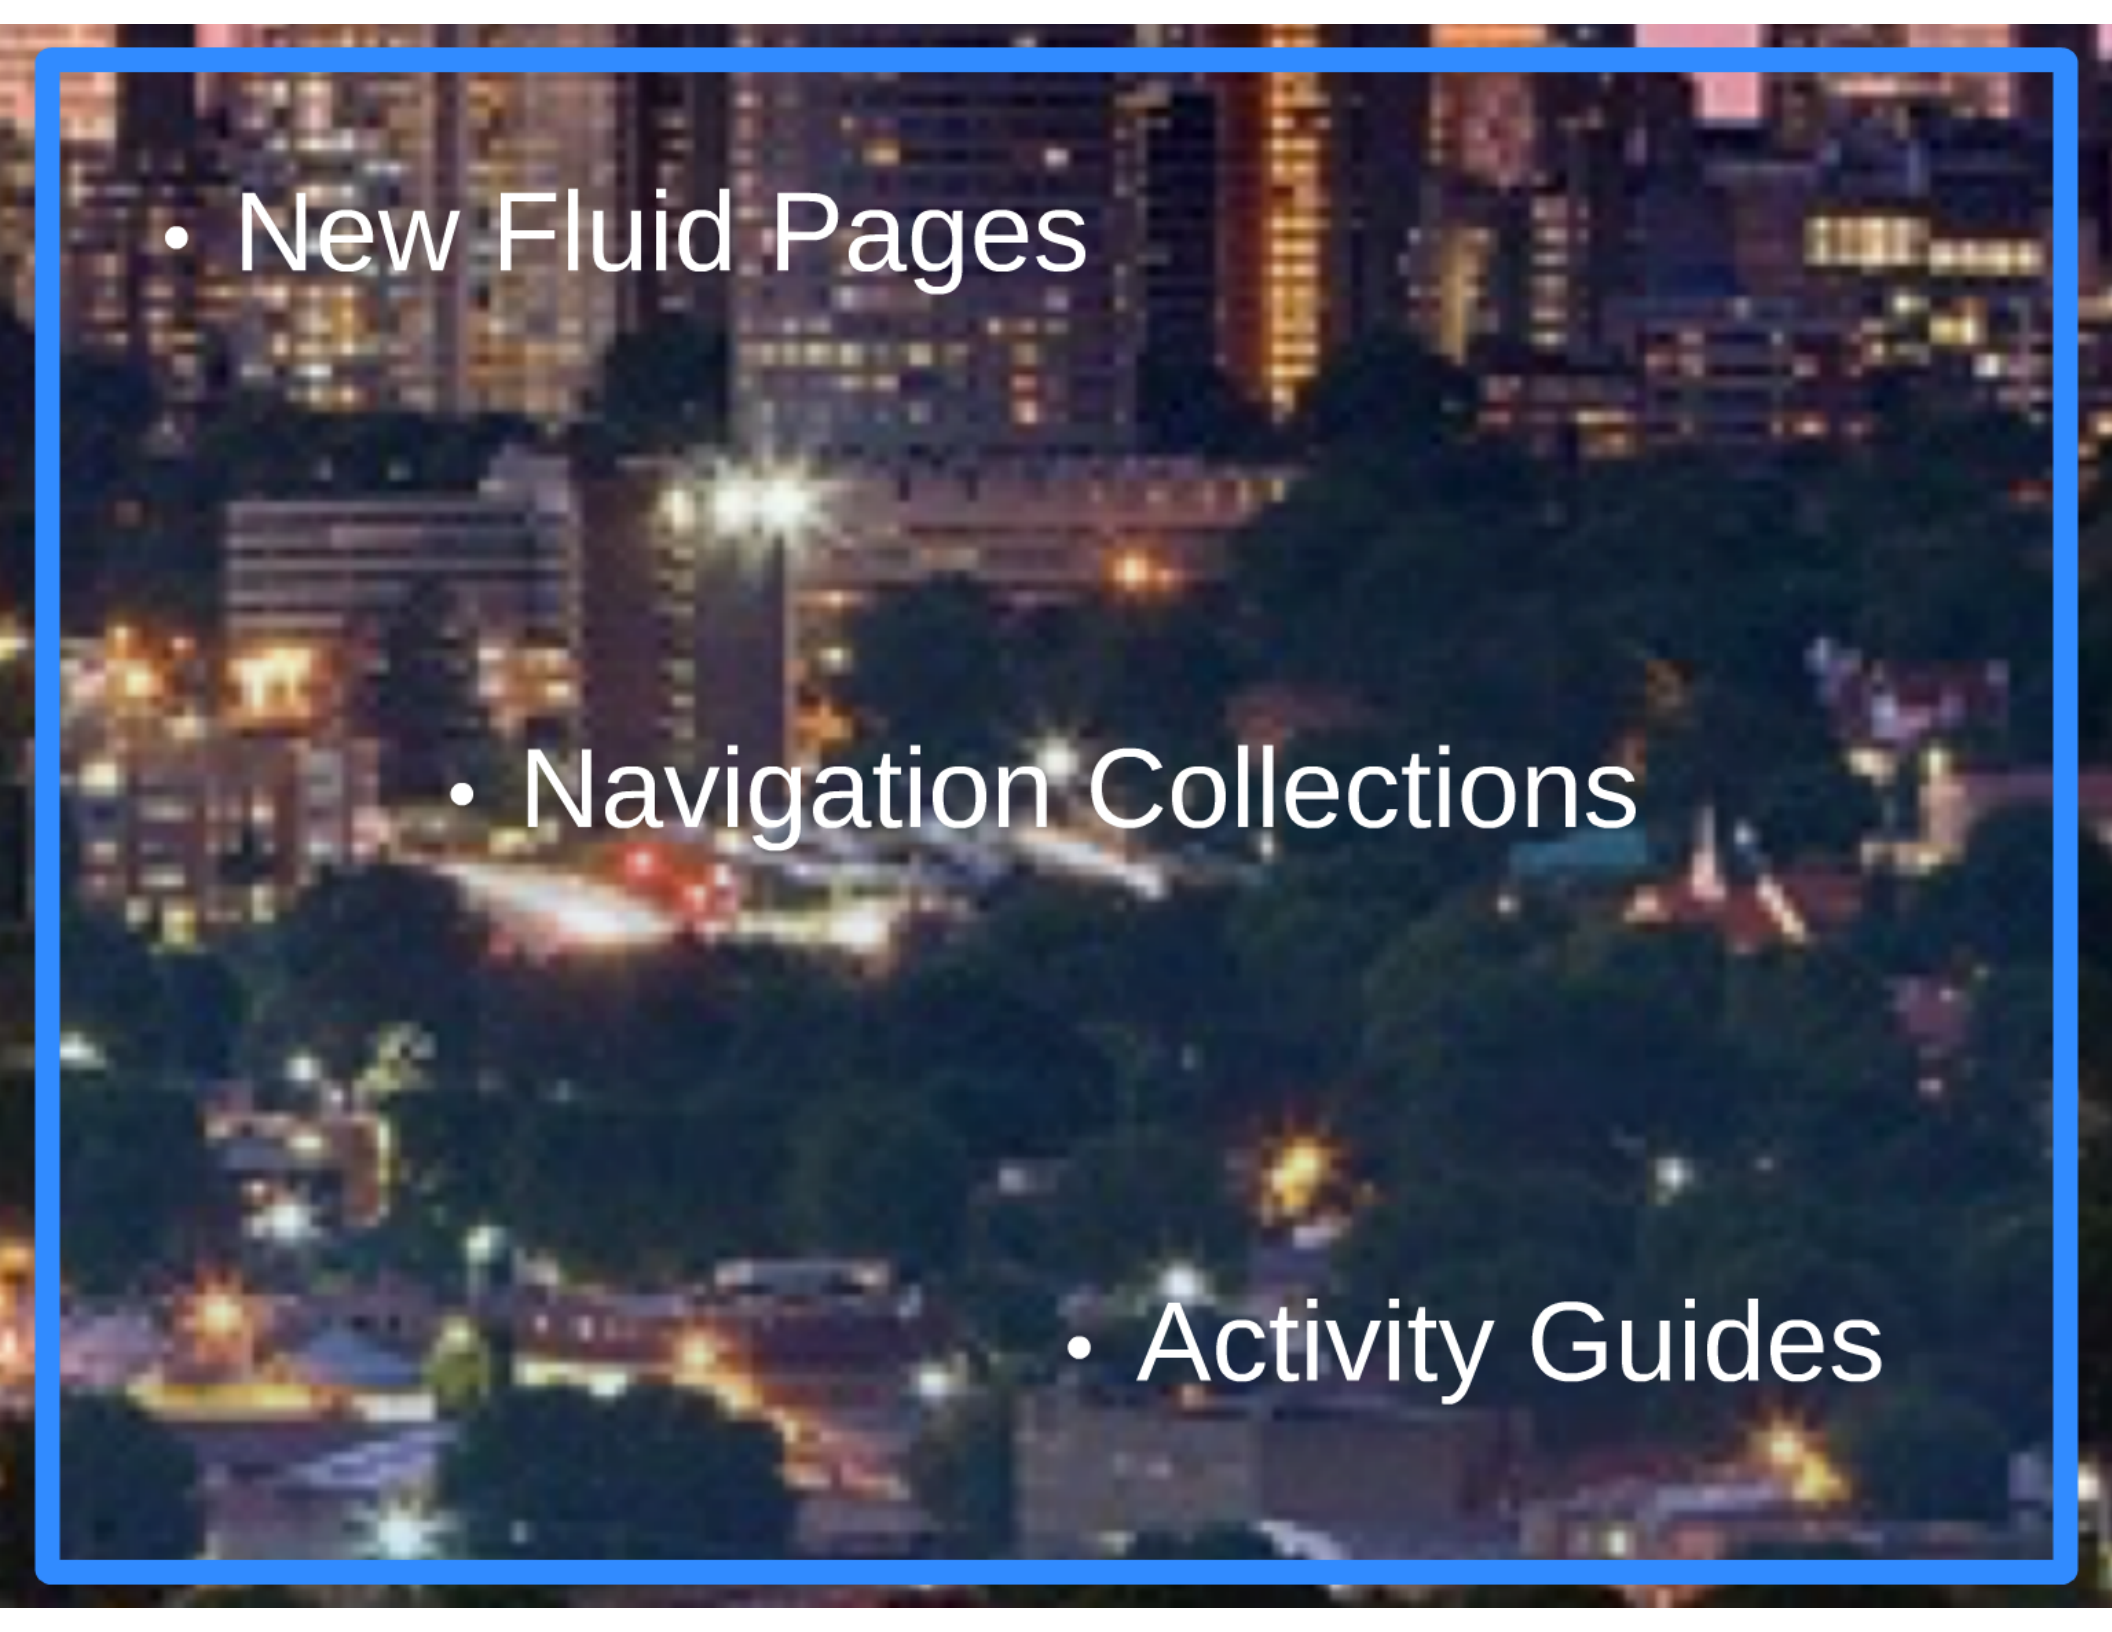

What is Fluid?

- Offers a responsive design
- Scales gracefully from large screen devices like laptops to tablets and smartphones
- Still uses Application Designer for development, but technique used for designing components and pages is different
- Can already use Fluid in PT 8.54, but PT 8.55 has significant improvements
- Makes use of HTML5, CSS3 and JavaScript
- Groupbox is essential container used for layout of fluid pages

Fluid Home vs Classic Home

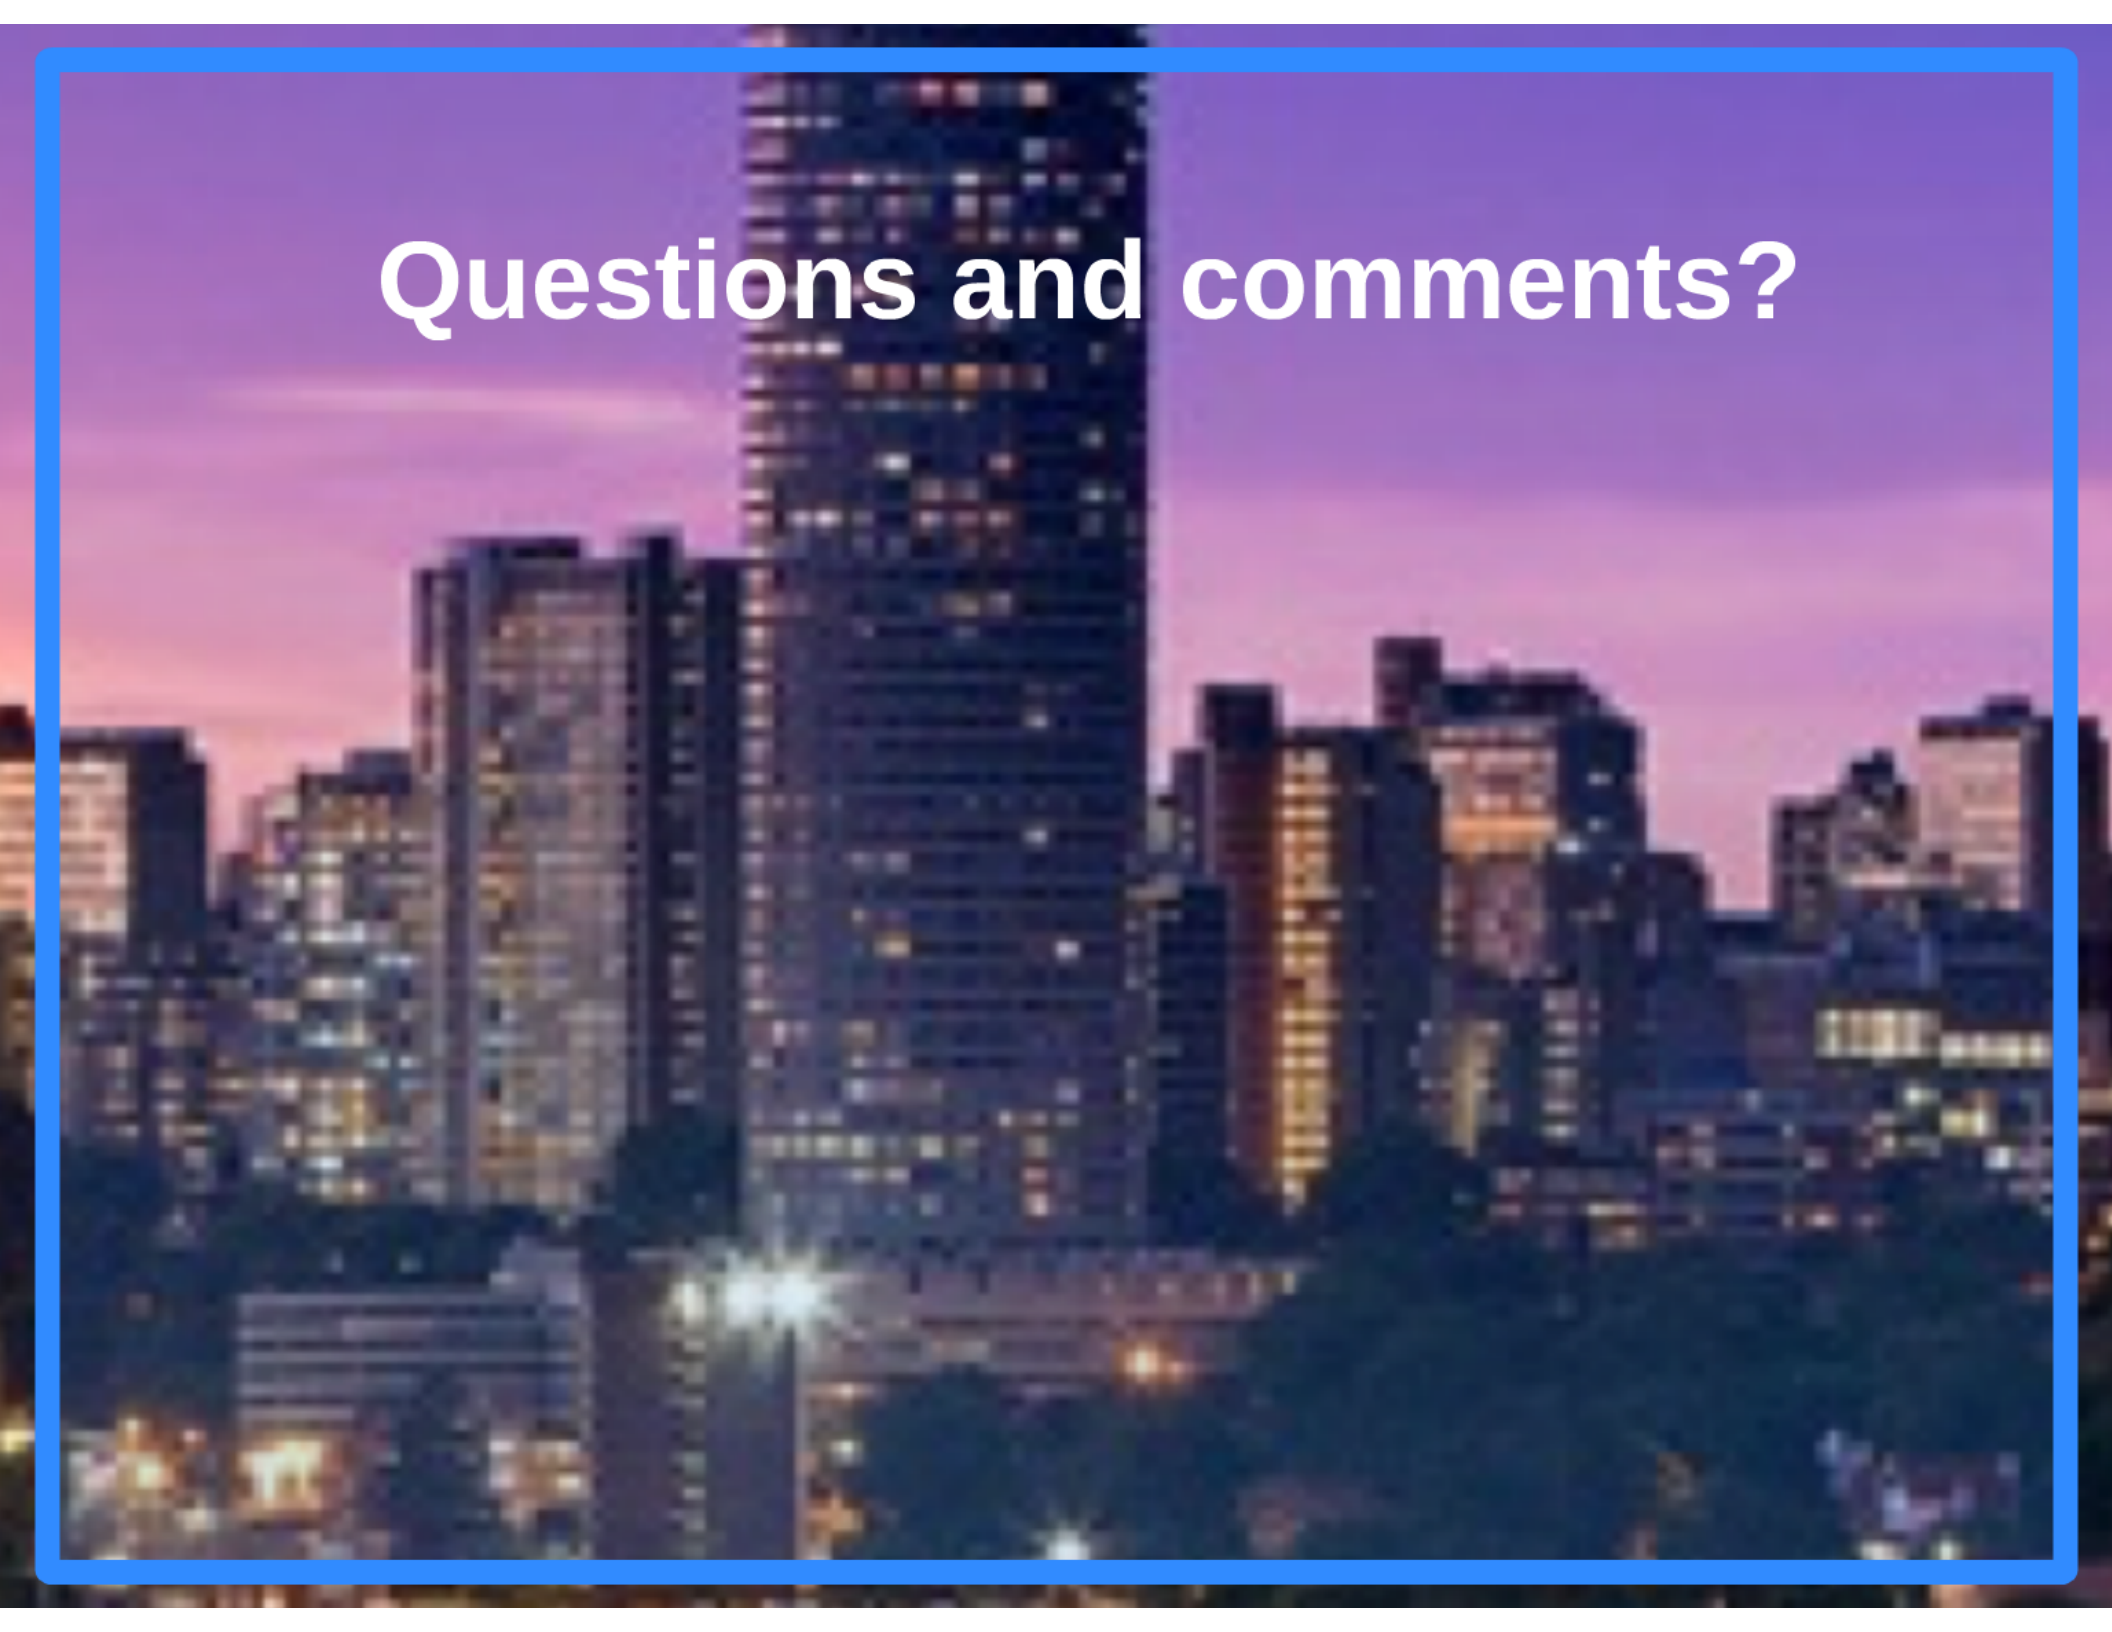

An aerial night photograph of a city. In the foreground, a large, dark green park area is visible, with some lights from buildings and streets. The background shows a dense urban landscape with many illuminated buildings and streets, creating a bokeh effect of lights.
